

## THEY SHOULD BE KILLED LIKE MAD DOGS

The entire military-political leadership of the fascist Putin's Russia, led by the crazy Putin and his cockroach Lukashenko, are war criminals and must be destroyed like mad dogs wherever they may be.

"Bump off in john!". They must have the earth burning under their feet! Every citizen of Ukraine has not only the right but also the constitutional obligation to destroy an aggressor who has encroached on the Fatherland, its independence and territorial integrity!

At the slightest opportunity, I will destroy Putin personally! The level of my training allows me to do it with my bare hands. I do not confuse with a double. I know the "Kremlin dwarf" well. Familiar.

Remember Ivan Kotlyarevsky's immortal poem "Aeneid": "Where the common good is in decline, / Forget the father, forget the mother, / Fly duty will be corrected" (Fly to defend the Fatherland - Author).

Remember the Ukrainian Amazons who defended their homeland when men died, Zaporozhian Cossacks, Heroes of Kruty, Heroes of the Heavenly Hundred, the first Maidan volunteers on the Eastern Front, who in 2014 stopped an armed Moscow horde.

We survived three famines (1921-1922, 1932-1933, 1946-1947), having lost more than 10 million Ukrainians. We were ruthlessly russified, assimilated, made into a "single community – the Soviet people" and "a single fraternal nation."

But we remained Ukrainians and gained our independence, thanks to our invincible Ukrainian Spirit!

The Ukrainian people survived and emerged victorious in World War II, during which the losses (including military and civilian) amounted to about 14,300,000 Ukrainians. This is 20.1% of global human losses (over 71 million people).

### **Ukrainians save the world from the nuclear fire**

Back in March 2017, in the article "We are not brothers" (the newspaper "Ukrayina Moloda"), I warned that due to Russian military aggression for three to five years, Ukraine will be at the epicenter of global geopolitics, where not only its fate will be decided, but also the future of the whole civilization.

Today there is a war with Putin's fascist Russia not only for the preservation of a unitary independent state of Ukraine. Ukrainians are saving the world from the nuclear fire that threatens to ignite "the monkey with a nuclear button" to get to "paradise".

But first he will burn on Earth or be hanged!

**That awaits Putin**

The West finally understood this. On February 15, 2022, the US President Joe Biden emphasized: "This is more than about Russia and Ukraine, it is about defending what we believe in – about the future we want for this world, about freedom and the right of countries to choose their destiny, the right of peoples choose your future".

**"Destroy the enemy of your kin without mercy..."**

Several thousand years before the emergence of Christianity and the baptism of Kievan Rus, our ancestors - the Oriya-Russians left to their descendants - today's Ukrainians - the commandments that we had to live to be a free, strong and equal KIN among other NATIONS .

The commandments of our ancestors, who have the Universal Cosmic Power, were destroyed and hidden by the enemies of Kievan Rus so that we would never have access to them and could not live by them.

Here are the Commandments of our ancestors, according to which we must live in this difficult time for the Ukrainian KIN:

1. "Stand for your land, the land given to us by our Light Gods, plowed by our ancestors, irrigated with sweat and blood of your parents, grandparents, great-grandparents."
2. "Destroy the enemy of your KIN without mercy« ".
3. "Defend yourselves and protect your brothers and sisters, so that your family does not end (is not interrupted)."
4. "Be faithful in friendship and love to your KIN and faithful and courageous in righteous struggle."
5. "Seeing the cunning of the enemy, answer him in the same way."
6. "Do not believe the wounded enemy and the murderer of your brother."
7. "Stick to righteousness and truth, they will lead to the victory."
8. "Do not respond with good to evil. The unpunished evil begets even the absolute evil."
9. "The strength and invincibility of your KIN is in the UNITY of your KIN."
10. "Do not lower your head like a slave. Do not humiliate yourself in front of anyone and do not let anyone to humiliate your KIN. Do not cry, do not complain, do not ask, do not be afraid. Live, fight and you will win! "
11. "Let our hands work our plowshares, and our swords gain our independence."
12. "Everything that depends on someone else's will is an evil. Everything that depends on one's own will is good. Your race must know this brief definition of good and evil."

We, Ukrainians, will withstand the war with the Russian aggressor, win the victory over the enemy and return the annexed Crimea and the occupied territories of Donbass to Ukraine.

The Russian Empire ("center of the world's Evil") will collapse as a result of the national liberation struggle of the enslaved people, for whom Ukraine will be a model of the democratic state.

In the near future, Ukraine will emerge as the spiritual and intellectual center of the united Europe from the English Channel to the Ural. It will be!

For us is Truth, for us is God! Victory will be ours! We believe, fight and defeat enemies on all fronts!

Glory to the Nation! Death to enemies! Ukraine above all!
